

CRC PRODUCTS

CRC5.56	9310832051059	CRC 5.56 is the original toolkit in a can. It penetrates and lubricates, loosens rusted parts, prevents corrosion and displaces moisture. It is extremely versatile, containing no silicones, this multi-purpose product has superior penetrating power that breaks through rust and corrosion while it cleans away scale and dirt. It lubricates for smooth action and silences annoying squeaks.	
CRC2.26	9310832020055	CRC 2.26 displaces and seals out moisture, prevents corrosion, cleans, lubricates and penetrates. CRC 2.26 is a stable, inert organic formula, especially prepared to prevent and repair electrical failures due to moisture, corrosion, dirt or friction.	
CRC-ZINCIT	9310832020857	CRC- Zincit is a single component Zinc rich compound with the special epoxy binder and contains over 90% of highest purity zinc in the dried film. It fuses directly to clean iron or steel surfaces through electrochemical action and presents a hard, single time protection against corrosion for many years. It is not a paint. This coating actively fights rust and corrosion creepage with a flexible continuous film.	
CRC-PLASTI	93083020437	Plasticote 70 is the universal protective film for printed circuits and is formulated to protect printed circuit boards from current creepage and short circuits.	
CRC-URETAN	9310832020444	This is a stable single component polyurethane coating that dries fast, adheres well and forms a hard, durable, flexible and non conductive film and is available in a clear and red coating.	
CRC-LECTRA	9310832020185	This is a unique scientifically formulated cleaner and degreaser that effectively removes moisture, grease, oil, wax, dirt and other contaminants from motor parts and other electrical / mechanical equipment. No flash point. No fire point. Use it to clean electric motors, high voltage switch gear, alarms, air conditioners, bus bars, cables, gear boxes, pumps, generators, welders, compressors, transformers, fork lift trucks, surface prior to anti-corrosion coatings.	
CRC-SILCON	9310832030559	CRC-808 silicone spray is a concentrated formula that provides a thin, durable, odourless film that revives, lubricates, waterproofs and protects. It will not mark or stain and is ideal for use on all metal, plastic, rubber, fabric, wood and painted surfaces.	
CRC-GUARD	9403097060284	Tackle guard is the new breakthrough in tackle protection. It is specifically designed to protect your fishing tackle from corrosion and is safe to use with nylon monofilament fishing line, braid, plastics and the composite materials used to build fishing rods and reels. It has a unique anti-corrosive stain inhibitor which prevents corrosion in non-ferrous metals, brass and aluminium commonly used in reels and ferrous metals.	
CRC-NAIL	9310832030511	This is a quick drying cleaner for nail guns and pneumatic tools. It degreases, removes oil, dirt, wax and foreign matters that cause failures. Down time is minimised by cleaning without disassembly. Use on all nail guns including air, cordless and electric.
