

Your work demands tools that won't let you down

TradeFlame has been trusted for generations by engineers, plumbers, electricians, and fabricators who need precision, reliability, and power on every job. From soldering irons to heavy-duty gas torches, every TradeFlame tool is built with the industry professional in mind, helping you get clean, accurate results the first time. When your reputation is on the line, you need tools designed to match your skill.

Soldering Irons

Engineered for demanding tasks, Tradeflame soldering irons deliver the heat control and reliability professionals need to complete every job correctly. Whether you're repairing, fabricating, or working on intricate electrical projects, these tools provide consistent heat, durable construction, and dependable performance day after day.

Tradeflame[®]

Dual Power 30/60W Soldering Iron

TF218056

Versatile dual-power soldering iron for electronics, craft work, and small-scale fabrication.

KEY FEATURES:

- ✓ 240v Dual power for heat control
- ✓ Fast heat-up: 0 °C - 350 °C in ~4 min
- ✓ Max temperature: up to 520 °C
- ✓ Comfort grip and LED light for extended use

BEST FOR:

- ✓ Light-to-medium soldering
- ✓ Electronics assembly and repair
- ✓ Hobby and craft projects
- ✓ Workshop use

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Interchangeable chisel and conical tips
- ✓ Metal stand

Tradeflame

Dual Power 50/100W Soldering Iron Kit

TF218067

Heavy-duty soldering iron for industrial wiring, larger components, and fabrication tasks.

KEY FEATURES:

- ✓ 240v Dual power for high-heat tasks
- ✓ Heat-up: 0 °C - 350 °C in ~2 min 30 s
- ✓ Max temperature: up to 560 °C
- ✓ LED power indicator and comfort grip

BEST FOR:

- ✓ Industrial wiring and heavy-duty soldering
- ✓ Larger component and connector work
- ✓ Fabrication and repair applications
- ✓ Workshop and trade use

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Interchangeable chisel and conical tips
- ✓ Metal stand

Tradeflame

Soldering Iron 25W

TF218078

A light-duty soldering iron with reliable heat control for electronics and fine work.

KEY FEATURES:

- ✓ Power: 240v
- ✓ Heat-up: 0 °C - 350 °C in ~3 min 30 s
- ✓ Max Temp: ~400 °C
- ✓ Cable Length: 1.8 m
- ✓ Features: LED indicator, ergonomic grip with on/off switch

BEST FOR:

- ✓ Electronics assembly and repair
- ✓ Fine soldering on circuit boards and components
- ✓ Light-duty wiring and connector work
- ✓ Hobby and model-building projects

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Roll of solder wire
- ✓ Long-life conical tip

Tradeflame

Soldering Iron 40W

TF218089

Standard-duty soldering iron suitable for general electrical and workshop repairs.

KEY FEATURES:

- ✓ Power: 240v
- ✓ On/off switch on handle
- ✓ Suitable for moderate soldering applications

BEST FOR:

- ✓ General electrical and workshop repairs
- ✓ Moderate soldering applications
- ✓ Wiring, terminals, and small component work
- ✓ Maintenance and light fabrication tasks

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Roll of solder wire
- ✓ Long-life conical tip

Tradeflame

Soldering Iron 80W

TF218123

A solid mid-range soldering iron providing reliable performance for general workshop and electrical tasks.

KEY FEATURES:

- ✓ Output: 240v
- ✓ Heat-Up Time: 0 °C - 350 °C in approximately 3 min 30s
- ✓ Max Temperature: Up to 540 °C; reaches maximum temperature in ~13 minutes
- ✓ Cable Length: 1.8 m
- ✓ Ergonomic Features: Comfort grip handle, LED light with on/off switch, and power LED indicator lights

BEST FOR:

- ✓ General electrical repairs
- ✓ Light to medium-duty soldering tasks
- ✓ Workshop and crafting use

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Interchangeable chisel & long-life conical tips

Tradeflame

Soldering Iron 100W

TF219156

A robust soldering iron offering higher heat capacity, ideal for heavier soldering tasks that exceed the capabilities of lower-wattage tools.

KEY FEATURES:

- ✓ Output: 240v
- ✓ Heat-Up: 0 °C - 350 °C in approximately 2min 30 s
- ✓ Max Temperature: (I) up to 450 °C, (II) up to 560°C
- ✓ Cable Length: 1.8m
- ✓ Ergonomic Features: Comfort grip handle, LED power indicator, on/off switch, LED working light for enhanced visibility

BEST FOR:

- ✓ Tough soldering applications
- ✓ Industrial maintenance and fabrication
- ✓ Quick heat-up and sustained performance

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Interchangeable chisel tip & long-life conical tip and solder

Tradeflame

Soldering Iron 150W

TF219167

A heavy-duty soldering iron built for industrial and fabrication environments, designed to deliver consistent, high heat for prolonged use.

KEY FEATURES:

- ✓ Power Source: 240v mains
- ✓ Heat-Up Time: each Reach 350°C in ~9 mins
- ✓ Max Temperature: Approx 450°C ± 30°C
- ✓ Cable Length: 1.8m
- ✓ Kit Includes: Information required
- ✓ Ergonomic Features: Sturdy design with a heat-resistant handle for comfort and safety

BEST FOR:

- ✓ Fabrication and assembly tasks
- ✓ Heavy-duty soldering applications
- ✓ Industrial repair and maintenance

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand

Tradeflame

Soldering Iron 200W

TF2I9I78

A very high-power soldering iron built for demanding applications requiring sustained, intense heat delivery.

KEY FEATURES:

- ✓ Output: 240v
- ✓ Heat-Up Time: Heat Up Time : Reach Reach 350°C in ~10 mins
- ✓ Max Temperature: Approx 480°C ± 30°C
- ✓ Cable : 0.75mm² with SA plug
- ✓ Ergonomic Features: High quality Chisel-shaped tip, tapered at 45° for optimal heat transfer and control.

BEST FOR:

- ✓ Large-scale soldering work
- ✓ Industrial manufacturing and repair
- ✓ Jobs requiring maximum heat and continuous duty

KIT INCLUDES:

- ✓ Soldering Iron
- ✓ Interchangeable tips
- ✓ Heavy Duty Metal stand

Tradeflame

Battery Operated Soldering Iron Kit (8W/11W)

TF218034

A low-voltage, battery-powered soldering iron offering two power settings (8 W and 11 W), perfect for compact, portable electronics work where mains power isn't available.

KEY FEATURES:

- ✓ Power Source: 4 × AA 1.5v Alkaline batteries (not included)
- ✓ Output: Dual settings – 8 W (low), 11 W (high)
- ✓ Heat-Up Time: ~30 seconds for each power toggle (8 W to active, 8 W to 11 W)
- ✓ Cable Length: Cordless
- ✓ Ergonomic Features: LED working light, low-voltage indicator, comfort grip handle, protective cap for storage

BEST FOR:

- ✓ Mobile or on-site electrical jobs
- ✓ Automotive and 12 V system repairs
- ✓ Small-scale electronics and hobbyist tasks

KIT INCLUDES:

- ✓ Long-life conical tip
- ✓ Protective cap
- ✓ Metal stand
- ✓ Soldering wire
- ✓ Battery end cover

Tradeflame

Soldering Iron 12V DC 30W

TF218045

A 12v soldering iron ideal for mobile repairs, fieldwork, and low-voltage applications

KEY FEATURES:

- ✓ Output: 12v
- ✓ Heat-Up Time: 0 °C - 350 °C in ~2 min
- ✓ Max Temperature: ~550 °C reached in ~6m 30s
- ✓ Cable Length: 1.6m
- ✓ Ergonomic Features: LED working light, comfort grip handle, power LED indicator lights, on/off switch

BEST FOR:

- ✓ Mobile or on-site electrical jobs
- ✓ Automotive and 12 V system repairs
- ✓ Small-scale electronics and hobbyist tasks

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Soldering wire
- ✓ Conical tips

Tradeflame

27 Piece Woodburning Kit 30W

TF218145

A versatile soldering and pyrography set designed for detailed decorative work and precision soldering.

KEY FEATURES:

- ✓ Power: 240v
- ✓ Adjustable heat with interchangeable tips
- ✓ Compatible with TF3001 and TF218145 tips

BEST FOR:

- ✓ Woodburning, pyrography, and craft engraving
- ✓ Light-duty soldering on small electronics/jewellery
- ✓ DIY, hobbyist, and artisan applications
- ✓ Customising gifts, signage, and decorative items

KIT INCLUDES:

- ✓ Woodburning / soldering iron
- ✓ 25 Interchangeable woodburning tips (drawing, shading & pattern tips)
- ✓ Soldering tip
- ✓ Hot knife tip
- ✓ Metal stand

Tradeflame[®]

8 Piece Wood-burning Kit 30W

TF218134

Dual-purpose tool for both fine soldering and artistic wood-burning applications.

KEY FEATURES:

- ✓ Interchangeable tips for precision soldering and pyrography
- ✓ Durable build for technical and creative work
- ✓ Max temp 590 °C /1094 °C

BEST FOR:

- ✓ Electronics soldering
- ✓ Engraving, shading, and pyrography
- ✓ Hobbyist and craft projects

KIT INCLUDES:

- ✓ Soldering iron
- ✓ 2 drawing tips
- ✓ 2 stamping pattern tips
- ✓ Soldering tip
- ✓ Hot knife blade
- ✓ Metal stand

Tradeflame

Soldering Iron 7 Piece Kit 60W

TF218112

A versatile mid-range soldering iron kit providing fast heat-up and reliable performance, ideal for general workshop and electrical applications.

KEY FEATURES:

- ✓ Power Source: 240 V AC
- ✓ Heat-Up Time: 0 °C - 350 °C in ~3 min 30 s
- ✓ Max Temperature: 540 °C
- ✓ Cable Length: 1.8 m
- ✓ Ergonomic Features: Comfort grip handle, LED working light (on/off switch),
- ✓ Power indicator lights

BEST FOR:

- ✓ Medium-duty soldering tasks
- ✓ Electronics repair and maintenance
- ✓ Workshop and industrial use

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Metal stand
- ✓ Interchangeable chisel & long-life conical tips
- ✓ Soldering wire
- ✓ De-soldering pump plus spare tip & O-ring

Tradeflame

Dual Power 6 Piece Electric Soldering Gun 100W

TF 2023

A high-performance soldering gun with a 100W boost mode for medium-duty soldering, cutting, and shaping. Perfect for workshops, repair centres, and technicians needing fast, reliable heat.

KEY FEATURES:

- ✓ 240v boost mode for heavy-duty tasks
- ✓ Multi-purpose design for soldering, cutting, and shaping
- ✓ Ergonomic handle for comfortable use
- ✓ Interchangeable Tip

BEST FOR:

- ✓ Electrical installations and repairs
- ✓ Rope and foam cutting
- ✓ Small fabrication projects
- ✓ Workshop and maintenance work

KIT INCLUDES:

- ✓ Soldering iron
- ✓ Interchangeable chisel and conical tips
- ✓ Metal stand
- ✓ Solder wire
- ✓ Tip cleaning sponge

Gas Torches

Engineered for controlled, high-intensity heat, Tradeflame gas torches deliver the power and reliability professionals rely on in demanding environments. From brazing and heating to shrinking, loosening fasteners, and general workshop use, these torches offer consistent flame control, robust construction, and dependable performance where precision and durability matter most.

Tradeflame

Turbomax Heat Torch

TFI278

A high-performance heat torch designed for precision heating tasks. For automotive, plumbing, and craft applications requiring fast, controlled heat delivery.

KEY FEATURES:

- ✓ Compact and portable design
- ✓ Adjustable butane flame control
- ✓ Ergonomic design for comfortable handling
- ✓ High-performance heat output for precision heating tasks
- ✓ Suitable for heating, brazing, soldering, and general DIY applications

BEST FOR:

- ✓ Fast and consistent heating
- ✓ Plumbing work
- ✓ Automotive repairs
- ✓ Detailed DIY and craft applications

KIT INCLUDES:

- ✓ Turbomax Heat Torch

Tradeflame

Refillable Mini Soldering Torch Kit

TFI256

A versatile mini soldering torch kit combining fast heat-up with portability. Ideal for electrical work, repairs, and on-the-go soldering tasks.

KEY FEATURES:

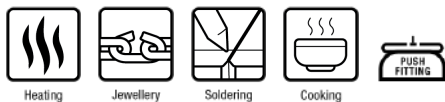

- ✓ Refillable butane gas design
- ✓ Hot air function for precision applications
- ✓ Piezo auto ignition for quick, reliable start-up
- ✓ Gas on/off switch with adjustable flame control
- ✓ Compact, portable size for on-the-go use
- ✓ Fast heat-up performance for efficient soldering and repair tasks

BEST FOR:

- ✓ Precision soldering work
- ✓ Heat shrink tubing
- ✓ Small-scale electrical and repair applications

KIT INCLUDES:

- ✓ Refillable mini soldering torch kit

Tradeflame

Handy Micro Torch

Butane Gas

TF211234

A reliable micro torch designed for small-scale soldering, heat shrinking, and craft applications. Compact and user-friendly, it's perfect for detailed work.

KEY FEATURES:

- ✓ Butane gas-powered micro torch
- ✓ Easy one-hand operation
- ✓ Compact and lightweight design
- ✓ Adjustable flame control for precise heat application
- ✓ Simple, refillable construction for repeated use
- ✓ Reliable performance for detailed, small-scale heating tasks

BEST FOR:

- ✓ Craft projects
- ✓ Jewellery making
- ✓ Light repair work
- ✓ Electronics applications

KIT INCLUDES:

- ✓ Handy micro torch

Tradeflame

Refillable Turbo Mini Soldering Torch Kit

TFI223

A powerful mini soldering torch kit designed for precision heating. Its compact design and high-output flame make it ideal for tradespeople and hobbyists.

KEY FEATURES:

- ✓ Refillable butane powered
- ✓ Turbo flame for fast, efficient heating
- ✓ Piezo ignition for easy and reliable start-up
- ✓ Adjustable flame control for precise heating tasks
- ✓ Lightweight and compact for portability
- ✓ High-output performance ideal for tradespeople and hobbyists
- ✓ Suitable for plumbing, electrical, hobby, and DIY applications

BEST FOR:

- ✓ Precision heating tasks
- ✓ Plumbing applications
- ✓ Electrical work
- ✓ Hobby and DIY projects

KIT INCLUDES:

- ✓ Refillable turbo mini soldering torch kit

Heating

Brazing

Heat Shrinking

BOM
FITTING

Tradeflame

Propane Full Flame Blow Torch BOM Fitting

TF211845

A robust propane blow torch designed for plumbing, heating, and general metalwork. Its powerful flame delivers reliable heat for soldering, brazing, and workshop applications.

KEY FEATURES:

- ✓ Full flame propane blow torch designed for strong, consistent heating
- ✓ High temperature flame suitable for soldering and light brazing
- ✓ Durable brass burner for reliable performance and longevity
- ✓ Ergonomic handle for comfortable control during extended use
- ✓ Push-button ignition for quick and easy lighting
- ✓ Designed for use with propane gas cylinders

BEST FOR:

- ✓ Light-duty soldering
- ✓ Brazing small copper pipes
- ✓ Heating and loosening metal fittings
- ✓ Plumbing and general workshop tasks

KIT INCLUDES:

- ✓ Full flame propane blow torch
- ✓ Brass burner assembly
- ✓ Gas connection fitting

Tradeflame

Mini Soldering Iron

Refillable Butane Gas Piezo Ignition

TF211212

A compact butane-powered soldering iron with multiple functions, including hot blower and blow torch modes. Lightweight and cordless, perfect for precision tasks.

KEY FEATURES:

- ✓ Butane
- ✓ Valve Refill
- ✓ Piezo ignition for instant lighting
- ✓ Hot blower and blow torch modes
- ✓ Flame adjustment and safety gas switch
- ✓ Lightweight, cordless, and portable
- ✓ Folding stand and protective cover included
- ✓ Compatible with Butane Cartridges 2312 (60g) and 2323 (220g)

BEST FOR:

- ✓ Electronics
- ✓ Crafts
- ✓ Plastic welding
- ✓ On-the-go soldering.

KIT INCLUDES:

- ✓ Refillable butane soldering torch (excludes Butane)
- ✓ Soldering tip assembly
- ✓ Integrated folding stand / base
- ✓ Protective cover

Tradeflame

Mini Soldering Torch Kit

TF1189

A versatile mini soldering torch kit built for precision work. Its compact design and included tips make it perfect for tradespeople and hobbyists.

KEY FEATURES:

- ✓ Compact mini soldering torch for precision heating tasks
- ✓ Fine, focused flame ideal for controlled soldering work
- ✓ Lightweight design for comfortable handling and accuracy
- ✓ Push-button ignition for quick and easy start-up
- ✓ Suitable for detailed work in confined or delicate areas
- ✓ Designed for use with butane gas

BEST FOR:

- ✓ Light-duty soldering
- ✓ Electrical and electronic repairs
- ✓ DIY and hobby applications
- ✓ Precision heating tasks

KIT INCLUDES:

- ✓ Mini soldering torch
- ✓ Soldering tip
- ✓ Hot air blower tip
- ✓ Protective cap

Tradeflame

360° Swivel Super Cyclone Blow Torch

TF2III101

An advanced blow torch featuring a 360° swivel head for versatile positioning and a powerful cyclone flame. Designed for professional users needing flexibility and consistent high heat.

KEY FEATURES:

- ✓ 360° swivel blow torch with cyclone burner
- ✓ Swivel torch head allows flexible positioning in tight spaces
- ✓ Cyclone burner concentrates heat for maximum efficiency
- ✓ Auto ignition trigger for reliable one-hand start-up
- ✓ Sturdy, professional-grade construction
- ✓ High-intensity flame for heavy-duty applications

BEST FOR:

- ✓ Heavy-duty brazing
- ✓ Plumbing installations
- ✓ Roofing tasks
- ✓ Industrial applications

KIT INCLUDES:

- ✓ 360° swivel blow torch with cyclone burner

Tradeflame

Turbo Blow Torch with Cyclone Burner & Pinpoint Burner Tip

TF2II089

A professional-grade turbo blow torch featuring both a cyclone burner and a pinpoint tip for versatile, high-intensity heating. Built for precision, speed, and heavy-duty applications.

KEY FEATURES:

- ✓ Dual burner design: cyclone burner + pinpoint tip for versatility
- ✓ High heat output for rapid work
- ✓ Easy-start piezo ignition for convenience
- ✓ Ergonomic, robust construction
- ✓ Suitable for precision and heavy-duty heating tasks
- ✓ Butane/Propane compatible for trade flexibility

BEST FOR:

- ✓ Industrial soldering
- ✓ Brazing applications
- ✓ Heat-shrinking
- ✓ Detailed metalwork requiring precise heat control

KIT INCLUDES:

- ✓ Turbo blow torch with cyclone burner
- ✓ Pinpoint burner tip

Tradeflame

Propane Handyman Turbo Blow Torch

TF211834

A reliable propane turbo torch for general handyman tasks, offering a steady, powerful flame for household, workshop, and trade use.

KEY FEATURES:

- ✓ Propane-powered
- ✓ Turbo flame for fast, efficient heating
- ✓ Adjustable flame control for precise operation
- ✓ Piezo ignition for easy start-up
- ✓ Simple, rugged design for regular use
- ✓ Suitable for household, workshop, and trade tasks

BEST FOR:

- ✓ DIY and trade applications
- ✓ Plumbing work
- ✓ Brazing
- ✓ Light fabrication tasks

KIT INCLUDES:

- ✓ Propane handyman turbo blow torch

Accessories

Tradeflame Accessories are designed for safe, reliable performance across gas, welding, and cutting applications. The range includes regulators, hoses, flashback arrestors, fittings, and related components, all manufactured to meet high durability and safety standards.

Built from robust materials and engineered for compatibility with industry-standard equipment, Tradeflame accessories ensure secure connections, controlled gas flow, and consistent operation in demanding workshop and site environments.

Helping Hand with Magnifier & Magnetic Base - TF218178

Precision support tool designed for stable handling and improved visibility during detailed work.

BEST FOR:

- ✓ Electronics assembly and soldering
- ✓ Jewellery and hobby projects

Plastic Welding Accessory Kit - TF3045

Plastic repair kit compatible with TradeFlame Mini Soldering Torch and Mini Soldering Iron.

BEST FOR:

- ✓ Reinforcing plastic repairs
- ✓ Workshop and on-site repairs

Desoldering Pump - TF1167

Manual vacuum pump designed for quick and efficient solder removal from electronic components.

BEST FOR:

- ✓ PCB repair and maintenance
- ✓ Electronics rework applications

Plumbing Solder Solid Core 85g - TF211512

Solid core plumbing solder delivering strong, reliable joints with smooth flow characteristics.

BEST FOR:

- ✓ Copper pipe soldering
- ✓ Plumbing repairs and installations

Metal Solder - Acid Core 85g - TF211534

Acid core solder with built-in flux for convenient metal repairs and fabrication work.

BEST FOR:

- ✓ Sheet metal repairs
- ✓ Automotive and fabrication tasks

Plumbing Flux & Brush 28.4g - TF211545

Plumbing flux supplied with an applicator brush to improve solder flow and joint strength.

BEST FOR:

- ✓ Preparing copper pipes for soldering
- ✓ Plumbing maintenance and repairs

3 Piece Wire Brush Set - TF211589

Three-piece brush set for cleaning and preparing metal surfaces before soldering.

BEST FOR:

- ✓ Surface preparation and cleaning
- ✓ Plumbing and workshop maintenance

Soldering Heat Mat - TF211778

Heat-resistant protective mat designed to shield surrounding surfaces during soldering.

BEST FOR:

- ✓ Protecting walls and cabinetry
- ✓ Plumbing and workshop applications

De-Soldering Wick 3.0mm 2PC - TF211978

Copper braid wick for clean removal of excess solder from electronic components and PCBs.

BEST FOR:

- ✓ PCB repair and rework
- ✓ Removing excess solder from joints

Polystyrene Welding Rods (PP) TF2I3056

Plastic welding rods designed specifically for Polypropylene (PP) repairs.

USE ON:

- ✓ Polypropylene (PP) plastic components only

BEST FOR:

- ✓ Repairing PP automotive parts
- ✓ Plastic tanks, trims and housings

Polyethylene Welding Rods (PE) TF2I3067

Plastic welding rods formulated for Polyethylene (PE) plastic repairs.

USE ON:

- ✓ Polyethylene (PE) plastics only

BEST FOR:

- ✓ PE containers and tanks
- ✓ Plastic fabrication and repair

Polystyrene Welding Rods (PS) TF2I3078

Welding rods designed for repairing Polystyrene (PS) plastic materials.

USE ON:

- ✓ Polystyrene (PS) plastics only

BEST FOR:

- ✓ Light-duty plastic repairs
- ✓ PS housings and components

ABS Welding Rods (ABS) TF2I3089

Welding rods specifically manufactured for ABS plastic applications.

USE ON:

- ✓ ABS plastic components only

BEST FOR:

- ✓ Automotive trims and panels
- ✓ Tool housings and rigid plastic parts

Reinforcing Stainless Steel Mesh TF2I3I0I

Stainless steel mesh used to strengthen plastic welding repairs by reinforcing cracked or damaged areas before applying welding rods.

USE WITH:

- ✓ Plastic welding repairs requiring added structural strength

BEST FOR:

- ✓ Reinforcing cracked plastic
- ✓ Strengthening high-stress repair areas

Soldering Tip to Suit 218023 & 218156 TF218023-01

Standard replacement tip for use with Tradeflame soldering irons **218023** and **218156**.

BEST FOR:

- ✓ Replacing worn tip on compatible irons.

Soldering Tip to Suit 218034 (IPC) TF218034-01

Single replacement tip for the **218034** battery-powered soldering iron.

BEST FOR:

- ✓ Extending life of 218034 unit.

Soldering Tip to Suit 218045 (IPC) TF218045-01

Single replacement tip designed for Tradeflame **218045** soldering iron.

BEST FOR:

- ✓ General tip replacement on that model.

Soldering Tip to Suit 218056 (2PC Set) TF218056-01

Two tips to suit the **218056** dual-power soldering iron.

BEST FOR:

- ✓ Interchangeable tip work on dual-power irons.

Soldering Tip to Suit 218067 (2PC Set) TF218067-01

Two tips for use with **218067** soldering iron models.

BEST FOR:

- ✓ Replacement or varied soldering tasks with that iron.

Soldering Tip to Suit 218078 (2PC Set) TF218034-01

Two replacement tips for Tradeflame **218078** soldering iron.

BEST FOR:

- ✓ Spare and varied soldering profiles.

Soldering Tip to Suit 218089 (IPC) TF218089-01

Single tip designed for the **218089** soldering iron.

BEST FOR:

- ✓ Replacing worn tip on that specific model.

Soldering Tip to Suit 218112 (2PC Set) TF218112-01

Two tips compatible with the **218112** soldering iron kits.

BEST FOR:

- ✓ Keeping extra tips on hand for repairs.

**Soldering Tip to Suit
218123 (2PC Set)
TF218123-01**

Two replacement tips for the
218123 soldering unit.

BEST FOR:

- ✓ Routine tip replacement.

**Soldering Tip to Suit
218134 (4 Tips/Hot Knife)
TF218134-01**

Four tips including hot knife
profile for the **218134** soldering/
woodburning kit.

BEST FOR:

- ✓ Woodburning and multiple soldering profiles.

**Soldering Tip to Suit
218145 (20 Tips/Hot Knife)
TF218145-01**

Large 20-piece tip set including hot
knife heads for **218145** soldering/
woodburning tools.

BEST FOR:

- ✓ Broad range of projects requiring varied tip shapes.
